

Please access IATA's website for further information: <http://www.iata.org/whatwedo/et/index.htm>

The screenshot shows the IATA website's E-Ticketing page. At the top, the IATA logo is centered. Below it is a navigation menu with links: About Us, Membership, Work Groups, Areas of Activity, Products & Services, Events, Training, and Pressroom. A secondary menu includes IATA by Region, Careers, and Customer Service. A search bar is present with a dropdown menu set to 'All IATA' and a 'Go' button. On the left side, a vertical menu lists various services: Passenger-Home, Billing and Settlement Plan (BSP), Coding, E-Ticketing (highlighted), Ground Handling, Inflight Services, Interline & Revenue Management, Passenger and Baggage Processing, Reservations, Scheduling, Simplifying Passenger Travel, and Travel Agents (Agenthome). The main content area features a large banner with the text 'e-ticket' and a mouse cursor pointing at it. Below the banner, the breadcrumb 'Home » Areas of Activity » E-Ticketing' is shown. The section title 'E-Ticketing' is followed by a paragraph explaining that E-ticketing (ET) is part of the 'Simplifying the Business' initiative to reduce costs and improve passenger convenience. It states that IATA's objective is to have 100% ET by the end of 2007 and mentions a comprehensive support programme. A link for 'More on ET - figures, implementation, support material...' is provided. On the right side, there are utility links: Bookmark this page, Send to a friend, Print this page, and Contact us. Below these is a box containing the text '> More on ET - figures, implementation, support material...'
