

## HOW TO APPLY FOR A KOREAN DRIVER'S LICENCE

A holder of a valid South African driving licence can apply for an exchange of their SA license into Korean driver's license whilst in the country. For the information in this regard, please directly contact the Korean Driver's License Examination Office near your place of residence. For further information you may visit their website at: <http://dl.koroad.or.kr/license/en/index.jsp>

One of their requirements is the Embassy Certificate of license for the purpose of verifying a foreign license. Applicants may obtain a certified copy of their South African driving licence from the South African Embassy in Seoul provided that the license is valid and in original. Please visit the Embassy after receiving confirmation of appointment.

## VERIFICATION/CONFIRMATION OF DRIVER'S LICENCE

The South African Embassy cannot issue any statement that a South African driving licence is a valid or legally obtained document. For the verification/confirmation, an applicant should contact the Road Traffic Management Corporation (RTMC) in South Africa directly.

### Contact details for the Road Traffic Management Corporation (RTMC) in South Africa:

**Tel**                    087-301-8200
